**XYZ MEDICAL FACILITY**

**TITLE OF REPORT** (e.g. AORTIC ANEURYSM SCREENING)

**Patient Name:** John Doe    **Age:** 45    **Date of Birth:** August 28, 1958  
**Patient ID:** 123456    **Location:** Chicago    **Gender:** Male  
**Dictating Physician:** Frank Smith, M.D.    **Test Date:** January 21, 2003

I had the opportunity to see your patient John Doe for consultation on January 25, 2003. Below are my findings for his Aortic Aneurysm Screening.

**Indications:**  
Men age 65 or older.  
Women age 65 or older with cardiovascular  
Family history of aortic and peripheral vascular disease.

**Examination Protocol:**  
Transverse images of proximal (near diaphragm) and distal aorta.  
Longitudinal images with AP measurement.

**Aorta Measurements:**  
**Proximal:** 2.1 cm  
**Mid:** 2.7 cm  
**Distal:** 2.9 cm

**Interpretation:** Abdominal aortic ultrasound was performed. These findings are consistent with a small aortic aneurysm. There is very small dilatation of the distal aorta. No other significant findings.

**Recommendations:** Clinical correlation and re-evaluation in 12 months.

This paragraph is a fixed paragraph that a client would expect to see in a report.

## How it Works

### Qualified Text

Qualified Text is text based on transcription templates and macros that is automatically populated into a transcription. **Qualified Text is billed at a rate significantly lower than standard text.**

### Print templates lines

Print Templates generate uneditable content for each transcription type and may include letterhead information, carbon copy information, date dictated, date transcribed, demographic field labels, as well as headers and footers. **Print Template lines are free.**

### Cost savings

Qualified Text and Print Template lines **lower the number of transcribed lines by as much as 35%**, increasing transcriptionist productivity and reducing costs significantly.
