I had the opportunity to see your patient John Doe for his Aortic Aneurysm Screening.

Indications:

Men age 65 or older.

Women age 65 or older with cardiovascular risk factors.

Family history of aortic and peripheral vascular aneurysms.

Examination Protocol:

Transverse images of proximal (near diaphragm) and distal aorta.

Longitudinal images with AP measurements of proximal and distal aorta.

Aorta Measurements:

Proximal: 2.1 cm

Mid: 2.7 cm

Distal: 2.9 cm

Interpretation:

Abdominal aortic ultrasound was performed. There is very small dilatation of the distal aortic segment.

Recommendations:

Clinical correlation and repeat examination with sonograms in 12 months.

This paragraph is a fixed paragraph that a client can request at the end of every report.
